SUMMARY

Electronics and Computer Science undergraduate with a strong interest in business analysis, product development, and system design. Experienced in requirement gathering, workflow definition, documentation, and supporting software development through academic and team-based projects. Skilled in translating business needs into structured technical solutions while collaborating with cross-functional teams throughout development cycles. Familiar with SDLC and Agile concepts, with strong analytical thinking, attention to detail, and problem-solving abilities.

EDUCATION

Bachelor of Science (Honours) in Electronics and Computer Science

 2023 - Present

University of Kelaniya, Sri Lanka

- Current GPA : 3.75 / 4.00 • Dean's List Honouree : 2024
- Relevant Coursework : Software Engineering, Database Management Systems, Full-Stack Software Development, Enterprise Software Design & Architecture, Project Management & Financing, Organizational Behaviour

G.C.E. Advanced Level - Physical Science Stream

 2021

J/Vembadi Girls' High School, Sri Lanka

- Z-Score : 1.4298
- Results : B (Combined Mathematics), B (Physics), B (Chemistry), A (English)

EXPERIENCE

Technical Assistant Staff - University Business Linkage (UBL), University of Jaffna

 2022 - 2023

- Provided technical and operational support for multiple university-industry projects by coordinating with project teams, tracking progress, assisting with resource requirements, and supporting procurement and payment-related activities.

Finance & Operations Coordinator - Hydrotech (Startup)

 2025 - Present

- Managing Excel-based financial tracking while supporting operational coordination, reporting, and workflow management activities within the startup environment.

SKILLS

Technical & Data Skills : Java (OOP), C Programming, HTML, CSS, Spring Boot, REST APIs

Database Skills : MongoDB, MySQL

Tools & Documentation : Git, GitHub, Microsoft Excel (Reporting & Tracking), Microsoft PowerPoint, Postman

Concepts : Software Development Lifecycle (SDLC), System Design Basics, Data Structures & Algorithms

AI & Generative Tools : ChatGPT (Prompt Engineering), Microsoft Copilot, Perplexity AI, Claude AI

Soft Skills : Presentation & Communication, Team Collaboration, Time Management, Attention to Detail, Proactive Mindset

Analytical & Business Skills : Requirement Analysis, User Workflow Definition, Problem Solving, Critical Thinking

CERTIFICATIONS & ACHIEVEMENTS

- Introduction to Information Security - HashX
- Web Designing Workshop - Orinsto Institute
- NVQ Level 4 - ICT Technician
- Lumofit - TechNovation 2025 Finalist
- AttendEase - Evolve 2024 Finalist

PROJECTS

SkillLink - University Skill Exchange & Collaboration Platform [🔗](#)

Full-Stack Group Project | React, TypeScript, Spring Boot, MongoDB

- Built a university-based platform enabling peer-to-peer skill sharing, collaboration, and session scheduling.
- Handled frontend, backend implementation, feature planning, requirement discussions, testing activities, and communication with the project supervisor throughout the development cycle.

Guide Pro - Intelligent Presentation Support System

IoT & Real-Time System Project | Python, Vosk, ESP32, Flutter

- Designed a smart presentation assistance system with real-time speech analysis, timing alerts, and repetition detection capabilities.
- Worked on repeated-word detection logic, system integration, documentation preparation, and cross-component validation between hardware and software modules.

Hostel Management System (HMS-Kelaniya) [🔗](#)

Full-Stack Group Project | PHP, MySQL, HTML, CSS, JavaScript

- Created a web-based hostel management solution to simplify room allocation and student request handling.
- Participated in interface implementation, database connectivity, process refinement, quality verification, and collaborative planning during system development.

Lumofit - Smart Posture & Wellness Belt

IoT & AI Group Project | ESP32, Sensors, AI Integration

- Developed an IoT-enabled wearable solution focused on posture correction, health monitoring, and emotional wellness assistance for differently-abled individuals.
- Assisted in project tracking, team communication, presentation preparation, and coordination of demonstration activities for TechNovation 2025.

Happy Hoodie - REST API System [🔗](#)

Backend Group Project | Spring Boot, MySQL, REST API

- Implemented a RESTful backend platform for handling customer management, orders, and feedback processes within an online pet product service.
- Supported API design, functional analysis, backend integration, validation procedures, and business process understanding using Spring Boot and MySQL.

VOLUNTEERING EXPERIENCE

Executive Committee Member - Tamil Students' Association, University of Kelaniya (2025 - 2026)

Content Writer - Electronics and Computer Science Club, University of Kelaniya (2023 - Present)
AWS Cloud Club, University of Kelaniya (2024 - Present)

Member - Electronics Students' Society, University of Kelaniya (2023 - Present)

LANGUAGES

- **Tamil : Native**
- **English : Professional Working Proficiency**
